Baccalauréat

Physics-Chemistry, French option

2021 – 2022

Mohamed Soulaimane Nadi Lahjouji

FULL STACK DEVELOPER

Motivated Full Stack Developer pursuing an Engineering degree in Software and Intelligent Systems, with proven delivery across React and Django applications in both internship and freelance contexts. Combines a strong sense for clean, maintainable code with hands-on data analysis experience — enabling a unique ability to build data-aware, production-ready web products. Experienced in cross-functional team collaboration and agile environments.

Professional Experience

Freelance — Various Agencies

Jan 2025 – Present

Full Stack Developer **FREELANCE**

- ▶ Developing full-stack web applications and data dashboard solutions for clients across multiple sectors.

Es Maroc

Summer 2025

Data Analyst

- ▶ Extended analytical work on the YIEP programme, leveraging Python and Tableau to support programme evaluation.

Es Maroc

Jun 2024 – Jan 2025

Data Analyst **INTERNSHIP → EMPLOYMENT**

- ▶ Analysed YIEP programme data using Python, SQL and Tableau to support resource allocation for 500+ beneficiaries.
- ▶ Automated monthly reporting with Pandas, reducing report generation time by approximately 70%.

AIESEC Tanger

Feb 2024 – Jan 2025

Vice-President **VOLUNTEER**

- ▶ Managed 20+ local business partnerships and facilitated 50+ international talent placements.
- ▶ Improved onboarding processes, reducing participant processing time by 25% through workflow optimisation.

Lear Corporation

Jan 2024 – May 2024

Full Stack Developer **INTERNSHIP**

- ▶ Built a machine fault-resolution application with React and Node.js, contributing to a 30% reduction in machine downtime.
- ▶ Designed an intuitive task-assignment dashboard to improve workflow efficiency across production teams.
- ▶ Collaborated closely with technical teams to align software delivery with operational requirements.

Computer Morocco Solution (CMS)

Jun 2023 – Sep 2023

Full Stack Developer **INTERNSHIP**

- ▶ Developed a project management platform (React + Django) used by 100+ users.
- ▶ Integrated REST APIs to automate resource tracking, saving 15+ hours per month of manual work.
- ▶ Applied Agile methodologies in a professional team environment for the first time.

Activities & Leadership

IT Geeks Club FSTT — Executive Board Member & Developer (2024 – Present)
